Objective

A highly motivated and detail-oriented ICT graduate from the Durban University of Technology, having completed both a Diploma and Advanced Diploma in Application Development – graduating cum laude for both. Currently pursuing an Honours degree in ICT. I have hands-on experience building real-world applications across multiple technologies including C#, Python, Java, and JavaScript, with projects ranging from facial recognition systems to property rental platforms and mobile tutoring applications. I am passionate about solving real problems through technology, writing clean and functional code, and continuously improving my skills. I am seeking a graduate programme opportunity where I can apply my technical skills in a professional environment, contribute meaningfully to real-world projects, and grow within a dynamic and innovative organisation. I thrive in collaborative environments, take initiative, and bring both technical ability and a strong work ethic to everything I do.

Experience

- A5 Cash and carry** 18/11/2025 - 31/01/2026
Floor staff
 - Delivered consistent customer service in a fast-paced retail environment, resolving queries and maintaining positive customer relationships
 - Assisted with stock receiving, pricing, and inventory management, demonstrating attention to detail and accountability
 - Collaborated with team members to ensure smooth daily operations and a well-organised store environment

Education

- Durban University of Technology** 2026
Bachelor of ICT Honours(In progress)
Expected Completion : 2026
- Durban University of Technology.** 2026
Advanced Diploma In Information and Communication Technology In Application development.
Completed(Cum Laude)
- Durban University of Technology.** 2024
Diploma In Information and Communication Technology In Application Development.
Completed (Cum laude).
- Sibongumusa High School.** 2021
National Senior Certificate.
Bachelor Pass.

Technical Skills

- Programming Languages: C#, Python, Java, JavaScript
- Frameworks and Libraries : ASP.Net MVC Core, Flask, OpenCV
- Web Technologies: HTML, CSS, JavaScript
- Database : SQL, SQLite
- Tools and platforms : Git and GitHub, Stripe API, Microsoft Office Suite, Visual Studio, Visual studio Code, Microsoft SQL Server Management Studio(SSMS), Data Migration Assistant(DMA), Android Studio

Skills

- Strong problem solving and analytical thinking.
- Effective Communication and ability to explain technical concept clearly.
- Collaboration and Teamwork with experience working on groups projects.
- Adaptable and open to feedback and professional growth
- Attention to detail and commitment to delivering quality work
- Self-motivated with a consistent track record of independent learning

Projects

- Face Recognition Attendance System | Python, Flask & OpenCV | 2025

- Developed a full-stack web application automating student attendance tracking using facial recognition technology
- Implemented a secure lecturer portal for generating and downloading digital attendance registers, with automated mark calculation based on attendance records
- Eliminated manual paperwork, significantly reducing administrative workload for academic staff
- **House Rental Platform | ASP.NET MVC Core & Stripe API | 2025**
 - Built a full-featured property rental platform allowing tenants to browse listings, submit applications, and make secure online payments via Stripe API
 - Provided property owners with a dedicated portal to advertise, manage listings, and process tenant applications
 - Streamlined the end-to-end rental process for both tenants and landlords
- **Peer Tutoring Mobile Application | Java (Android) | 2025**
 - Built a mobile application connecting students with tutors, enabling online session booking and schedule management
 - Improved access to academic support and streamlined communication between students and tutors
- **DUT Online Bookstore | Python & Flask | 2025**
 - Developed a fully functional e-commerce web application enabling DUT students to browse and purchase academic books online
 - Reduced dependence on physical stores, improving accessibility to learning materials across campuses
- **Catalyst E-Commerce Store | C# Windows Forms | 2025**
 - Designed and built a Windows Forms application for an online clothing store with a fully functional admin portal
 - Enabled inventory management including product uploads, updates, and order processing
- **QR Code Generator | JavaScript | 2025**
 - Developed an interactive web application generating custom QR codes for websites and WhatsApp links
 - Designed to help businesses streamline digital advertising through scannable, shareable codes
- **DUT Student Accommodation Portal | C# ASP.NET MVC Core | 2024**
 - Built a self-service reservation system allowing students to independently browse and book campus accommodation
 - Eliminated manual administration, improving booking efficiency and convenience for students and staff
- **Campus Clinic Appointment System | C# ASP.NET MVC Core | 2023**
 - Developed a full-stack web application enabling DUT students to schedule clinic appointments online
 - Reduced reliance on manual booking, improving healthcare accessibility and minimising waiting times

Community Engagement

- Children's Village Outreach, Pietermaritzburg
 - Organised and participated in a visit to a children's village, donating clothes and toys to support orphans
 - Spent meaningful time engaging with children, demonstrating empathy, social responsibility, and community commitment

Achievements & Awards

- 30/07/2023 : Python Programming with everybody.
- 01/08/2023 : python Data structure.
- 14/02/2024 : Technical Support Fundamentals.
- 21/03/2024 : 5G Basics- What's all about.
- 08/10/2023 : Nedbank Consumer Financial Education.
- 02/11/2024 : Academic Support.
- 24/07/2025 : Certificate In Full Stack Development.
- 05/04/2026 : Introduction to Research Ethics
